Dear Maria and the team at HAPS,

I would like to thank you for your continued support and the excellent service you provide Cornell Concrete Constructions. You have been a great factor in both getting our accounting division on track and expanding our outlook for the future of our company.

Not only do you complete all the work required of you, but you are always there to advise and guide in so many different ways!

We have come to think of you as an integral part of our team and an essential factor of the running of our business.

Thank you

Kind regards,

James Cornell

Director

Cornell Concrete Constructions
