

HUN TING FOR GEO RGE*

Maria has been a huge support and taken all the stress out of starting and managing a successful small business. Her advice and continual support with business decisions has given us the confidence and assistance to develop.

Maria's understanding of our online accounting software, Saasu, has meant that she has the instant accessibility to information to respond to any business questions that arise.

We are fortunate to have Maria as an active member of our team.

Lucy Glade-Wright and Jo Harris
